DETAILED ACTION

Receipt is acknowledged of applicants' response, filed 7/24/02. Receipt is also acknowledged of a terminal disclaimer file 7/24/02. Applicants' response has obviated the outstanding grounds of rejection.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 13 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claim is directed towards an RNA-loaded APC cell. The specification indicates that an intended use for the RNA-loaded APC cells of the invention is for therapy of human subjects. Therefore, the claim can reasonably be read as encompassing a cell in a human body. Thus, the claim can be interpreted as encompassing a human. Such a claim is non-statutory.

Claim Objections

Claim 14 is objected to because of the following informalities: claim 14 specifies "The" method when it should read "A method". Appropriate correction is required.

Conclusion

This action is not final. Claims 1-12, 15-18, 25-27, 29-41, 44-59 are allowed (now claims 1-50).
